- ~ Venue MAY need to provide SIX chairs for performers depending on show type (acoustic vs. electric)
- ~ All microphone stands need booms ~ Some of the performers prefer to use their own microphones
- ~ Pete's instrument microphone should be an SM57 or better (acoustic show)
- ~ Performers will probably use amplifiers for all instruments (depends on venue - please verify this with band)
- ~ Some of the performers have their own direct boxes, but venue should be prepared to provide
- ~ AC power drops are needed for amplifiers and keyboard ~ Need bottled water and towels for each performer
- ~ Some monitors MAY be combined if venue does not have sufficient mixes or wedges-please consult

**ANY QUESTIONS PLEASE CONTACT: JOHN FUZEK**mobile: 401-261-3953 • e-mail: fuzmzek@aol.com
